The subscribers are prepared to furnish private houses or public buildings with Gas Pipes and Fixtures at the shortest notice and at reduced prices. N. B.—Private residences fitted at from two to four days, complete.

WORAM & HOUGHWOUT,

1023 Im.

Nos. 361 and 362 Broadway.

SAFE SPIRIT LAMPS.—The subscribers desire to call the attention of the public to J. JENNINGS'S Patent arrangement for preventing explosions
by the careless use of Phescene Gas, Burning Fluid, &c.
The principle is the same its applied to Sir H. Davy's MineLamps, and consists of the use of fine wire gauze in such a
manner that any careless filling of a lamp near a figure will
not cause an explosion, as the wire gauze effectually prevents the flame communicating with the contents of the
can and the body of the lamp.

Having sold large numbers of these goods for five years
past, and having never known of a serious archiert among
our customers, we are warranted in strongly recommending them to those who desire to use Phosgene Gas, Burning
Fluid &c.

F. DIETZ, dealer in every variety of Oil, Camphene and Burning Fluid Lamps, No. 27 Greenwich st., N. Y., 3d door above Barcing. NOTICE TO MANUFACTURERS For some time past, we have been engaged in building, and preparing to build." Brandred's Parent Throatie." Having now completed our stock of tools for that purpose, we are able to build these machines with greater a curacy and dispatch than previously, and to recommend them with confidence to the attention of manufacturers. These machines have been in successful operation for the last four years. They will do as much work as the Danforth Throatie, with one third of the power. The tenst is more uniform than from any banded spindle, the use of bands being dispensed with. In strength and durability, this Throatie is acknowledged, by competent judges, to excel every other spinning machine. Many of the Live Sundle Throaties can be altered to the new principle, so as to turn off nearly double the former quantity of work. The Danforth Throatie can also be altered, so as to give the full quantity of varn, though reducing the power at least two thirds. These Throaties are now in active operation in the factories of Messris J. P. Chrysler & Co., of Kinderhook, and Alfred Wild, Eso., of Cohoes Falls, to whom we refer the public for infermation as to their practical working. We are prepared, as usual, to execute orders for Cotton, Shafting, Pullies, &c., as well as all other articles in our law of beauties.
